- Career development
- Mining, Civil, Construction & Quarry

ROCK Australia is seeking experienced Drill Fitters for existing projects and new prospects. We manage a large fleet of predominantly new equipment for top-hammer, down-the-hole hammer & coprod® drilling methods:

- Atlas Copco L8 + L830
- Atlas Copco L7 + L740-CR
- Atlas Copco F9
- Sandvik Titon 600
- Sandvik Panterra 1500
- Sandvik Ranger 800
- Tamrock CHA1100
- Sandvik Scout
- Sandvik Commando
- Terex Cubex
- Wagon drill
- Airtracs

We operate at numerous locations throughout Australia; serviced from our bases in Perth, Kalgoorlie, Townsville, Brisbane and Orange where there is the opportunity to relocate and/or work interstate on a FIFO or DIDO basis depending on the specific site.

ROCK Australia is committed to the training and development of personnel and aims to promote motivated individuals within the organisation.

We seek applicants with:

- Applicants are required to have a Mechanical Trade Certificate
- Experience with hydraulics and 24 volt electrics
- Trouble Shooting and problem solving capabilities
- Experience in managing and ordering parts
- The ability to work unsupervised and manage time and repairs efficiently and effectively
- Must possess a positive attitude towards safety
- Pass a pre-employment medical, drug and alcohol assessment.
- Great communication and interpersonal skills

To join a dynamic team with rewarding prospects, we look forward to receiving your application and CV:
