< GROUND SUPPORT OPERATORS >

- **WA, QLD, NSW & VIC**
- **Top Dollars**
- **Flexible Rosters**
- **Career development**
- **Mining, Civil & Construction**

We are seeking experienced Ground Support personnel for existing projects and new prospects. ROCK services mining and civil clients throughout Australia offering the full range of geotechnical services to both surface and underground applications:

- **Rockfall protection systems**
- **Slope stabilisation**
- **Cablebolting**
- **Rockbolting**
- **Meshing**
- **Shotcrete & fibrecrreting**
- **Grouting**
- **Drilling**
- **Soil nailing**
- **Ground anchors**
- **Debris & avalanche barriers**
- **Mine services**

We operate at numerous locations throughout Australia; serviced from our bases in Perth, Kalgoorlie, Townsville, Brisbane and Orange where there is opportunity to relocate and/or work interstate on a FIFO basis.

ROCK Australia is committed to the training and development of personnel and aims to promote motivated individuals within the organisation. We undertake a range of projects from long-term contracts to specialist applications and further opportunity exists for those seeking multi-skilling in the arenas of drilling, blasting, environmental and technical access (industrial ropework) services.

We seek applicants with:

- **Proven competency and experience**
- **Organisational and leadership capability**
- **Trouble-shooting and problem solving ability**
- **Good communication and interpersonal skills**
- **Commitment and dedication to safety and quality work practices**

To join a dynamic team with rewarding prospects, we look forward to receiving your application and CV:
